

List of Traveller Education Resources

Advice and Guidance

Schools wishing to order resources from any of the suppliers listed below should note the following:

The list presented here is a small sample of Traveller Education resources which may be purchased from suppliers in Ireland and England. Schools wishing to purchase such resources are advised to confirm availability and costing with suppliers as well as terms and conditions associated with purchase, carriage and discount for large orders, VAT etc. It is also advisable to scrutinise teaching resources, in advance of classroom use, to ensure that they are free from bias and are pedagogically sound.

If you are purchasing resources through an LMS budget, the normal procedures will apply.
