## GUIDANCE TO TEACHERS on COMPLETING THE QUESTIONNAIRE

Dear Colleague

This questionnaire is an important means of finding out about the effectiveness of our anti-bullying procedures. The information will be used to establish our current position and, together with parent, pupil and ancillary staff responses, will help us identify the aspects we are carrying out successfully and also give us the necessary information to take action on areas in need of improvement.

The questionnaire contains 33 statements, focussing on a range of issues relating to challenging bullying behaviour. It will take about 30 minutes to complete and to enable the most accurate gathering of information, it should be done without discussion with colleagues. Your response will be confidential.

The questionnaire will be used again at a later date, in order to ascertain the changes that have taken place as a result of action taken. This will form part of our monitoring and evaluation strategy.

Please return the completed questionnaire in the envelope provided /in the box in the staffroom, by \_\_\_\_\_

*THANK YOU FOR YOUR CO-OPERATION*
