

Following a very successful event in Queen's University in January 2009  
the A.S.E. (NI Region) are happy to present a

## **SECONDARY SCIENCE WORKSHOP in**

**Lumen Christi College, Derry**

**Saturday March 21<sup>st</sup> 2009 from 10.30 – 12.30**

Supported by the ELB's

ASE Members FREE Non Members £5 (pay at door)

**Title of Workshop**

***Assessment for Learning in Science:  
Strategies to raise achievement***

**Presenter**

Michelle Ryan is an accredited Advanced Skills teacher and former Science Advisor for Sutton Local Authority, London (One of the UKs highest performing LAs). She has over 13 years of experience in the implementation of best practice and raising attainment within education in London. She also worked as a school improvement consultant for the flagship "London Challenge" government task force. Michelle has recently relocated to Northern Ireland and has been working as an independent consultant, training, writing and evaluating teaching materials for various organisations including Nuffield and the Science Enhancement Project (LSS Project). She is currently planning to return to the classroom.

**Workshop Outcome(s)**

By the end of the session teachers should:  
Understand how Assessment for Learning can promote independent learning.  
Appreciate how Assessment for Learning can be use to raise achievement.  
Have experienced a range of classroom based activities / strategies.  
Have a clear understanding of how they can use these strategies with their pupils.

**Workshop Content**

The Workshop will have a classroom and pedagogy focus. Formative use of summative assessment, measuring progress, effective questioning, and teacher modelling will all be touched upon within the session.

The main aim is to provide useable practical activities for teachers for the full spectrum of secondary science pupils. The session will be interactive, involving group work, discussion and videos of science lessons.
